### ONLY 350 ACRES

Remaining Unsold of the Hickey Tract,  
Two Miles East of Loomis, Surveyed and  
Subdivided into 20-acre Tracts.

THE SOIL IS DEEP AND RICH, IS MOSTLY  
alluvial, and will produce a good crop of grain  
and vegetables. Price \$20 per acre, and  
payments, 65¢ per cent. per annum. Mr. Thomas  
Chatfield, the owner, is always ready to  
show the tract, and will sell to the highest  
bidder. The wood will pay expense of clearing. Most  
of the trees are dead, and will not be  
of any value. The water is good, and  
the springs in various parts of the tract; all  
can be brought under irrigation, the tract  
is good for orchard, and the improvements  
are good without it, owing to the richness  
of the soil. Price, \$20 per acre, according  
to the size of the tract, and the amount of  
improvements, 65¢ per cent. per annum. Mr. Thomas  
Chatfield, the owner, is always ready to  
show the tract, and will sell to the highest  
bidder. The wood will pay expense of clearing. Most  
of the trees are dead, and will not be  
of any value. The water is good, and  
the springs in various parts of the tract; all  
can be brought under irrigation, the tract  
is good for orchard, and the improvements  
are good without it, owing to the richness  
of the soil. Price, \$20 per acre, according  
to the size of the tract, and the amount of  
improvements, 65¢ per cent. per annum. Mr. Thomas  
Chatfield, the owner, is always ready to  
show the tract, and will sell to the highest  
bidder. The wood will pay expense of clearing. Most  
of the trees are dead, and will not be  
of any value. The water is good, and  
the springs in various parts of the tract; all  
can be brought under irrigation, the tract  
is good for orchard, and the improvements  
are good without it, owing to the richness  
of the soil. Price, \$20 per acre, according  
to the size of the tract, and the amount of

THE CASE OF SENATOR HEARST ONCE MORE.

Whoever sent Senator Stanford at Washington a dispatch saying that the Republicans will not, or are pledged not to elect a United States Senator at this session of the Legislature, did not speak from the heart. It had no authority to voice the opinion of the party and flew in the face of public judgment. Senator Stanford placed no trust in the dispatch. Why it should have been sent passes reason, except it was intended to evoke from him, as a distinguished party man, approval that would help the Hearst faction here out of the Slough of Despond. There is just a question of duty doing in this matter, and nothing more. Senator Edmunds has put the matter in the right light. He says it is a plain duty of the Legislature to elect. If it fails to do so it evades duty. By such failure it cannot help "Uncle George" a particle, for the power of the Governor to appoint him is derived from Federal authority and is good only "until the next meeting of the Legislature." When that body met the duty of filling the vacancy was transferred to it. If it now fails to act the vacancy will be left "existing" and the Governor cannot reappoint Mr. Hearst. But the Senate may permit Mr. Hearst to warn a Senatorial cushion until his successor appears. Such has been its custom of courtesy. But let us ask, by what authority of law does the Senate do this thing? If there is a vacancy, as all the Senators agree, it can only be filled lawfully. To permit one to act as a Senator because no one appears to contest his right, although it is clear that his chair is in law vacant, is a flat violation of law and unbending to the Senate. Suppose the validity of some legislative act should depend upon the vote of a "Senator" of that order, does any believe that that Courts would hold the "Act" to be valid? While the Senate is so positive—and rightly so—that the Legislature of California must do its duty and select Mr. Hearst's successor, because it is the law of the land, should not that grave and dignified body itself apply the same save and decline to recognize as a Senator a gentleman clearly not a Senator? The appeal for sympathy has been made in behalf of Mr. Hearst. It is said with a good deal of lip-pouting that it is "rough" and "wrong" and "snap judgment" to fire out Uncle George and put a Republican in his place; that it is a bit of mean partisanship. Let us see. The people elected a Legislature that in turn chose General Miller, a Republican, to be Senator for six years. The people thereby made their will known as to the political character of the man who would be Senator. Death intervened and removed Senator Miller. In the meantime a Democratic Governor is chosen, and he selects a Democrat to fill the unexpired term of the Republican Senator. Now that the Legislature is in session, and has a Republican majority on joint ballot, where is there any injustice, any snap judgment, any lack of courtesy in choosing a man to fill the unexpired term who is in accord with the political faith embodied by Senator Miller? Is not such action, on the contrary, simply giving vitality in practical operation to the latest express will of the people upon the Senatorial question? The snap judgment, if any, was that taken by Governor Stoneman when he appointed Mr. Hearst. But Republicans did not complain of that at the time, nor do they now, "and just the same" they do not expect Democrats to complain of them for restoring the Republican succession in the Senate.

## TAKING THE FEATHER RIVER.

J. M. Ward, a member of the Legislature, and eight associates have filed a claim of appropriation upon so much of the free and unrestrained use of 100,000 inches of water of that stream, to be diverted just below the confluence of the north fork of the river and the main stream. The proposition is to use the water, through the medium of a canal sixty feet wide, for the purposes of irrigation, milling, etc. If the unrestricted operation of seizing upon rivers is continued, there will presently be no stream left free, if indeed any river is now unclaimed. It is admitted that the running waters thus far appropriated are held by comparatively a few men. But, regarding the Feather, we believe it demonstrable that the taking of water from it by a sixty-foot canal six feet deep will check the current of the river as to destroy its navigability except at exceeding high water in winter. Whoever has studied the nature of its discharge into the Sacra-

## ANTI-RIPARIAN AGITATION.

## AUTHORITATIVE STATEMENT BY THE EXECUTIVE COMMITTEE.

## A History of the Work of Irrigation Conventions—Misrepresentations Corrected—Etc.

A vigorous war is being waged against the demands of the irrigators of the State, for a right to use waters of our natural navigable streams, on the grounds that an attempt is being made on the part of a few wealthy men to monopolize all the waters of the State with the intent of oppressing the people. In view of this fact a brief review of the agitation of this question during the first three years will be of public interest.

In the spring of 1863 the people of Riverside, in San Bernardino county, and the owners of other irrigable lands in southern California, fearing the necessity of the enactment of more definite laws to govern and control the use and distribution of water for irrigation, domestic and other beneficial purposes, as these interests were becoming the basis on which the rapidly increasing wealth of that section must rest, expressed the desire that a State Irrigation Convention be held at an early day to discuss the subject, and to propose such amendments thereto as the necessities of the case might require. As Riverside was the center of this movement, a call was drawn up calling a State Irrigation Convention to meet in Riverside on the 23d of May, 1863. This Convention was largely attended by representatives from all parts of the State, with a large delegation from the Sacramento valley, and a few representatives from the Sacramento valley and a few representatives from the Sacramento valley. The Convention selected J. DeBarth Shorb, of Los Angeles, to preside, to provide it with deliberations. The object of the convention was to determine what was to be done to secure the irrigation of the State from the irrigation of the rivers. Rather than the State could better afford to buy out the interests of both of these great firms and request them to leave the State.

The people who were instrumental in this campaign for the past three years are opposed to any monopoly of the waters. Messrs. Haggins & Carr do not represent the irrigation side of this question only in a very small way. They are not in agreement with some modifications, perhaps will thoroughly protect the people from any water monopoly. The Legislature will be called upon to pass some similar measure at an early day that will afford the people ample protection.

I might also state in this connection that Miller & Lux own one of the largest canals in the State, but that under the District Bill he has no right to do what Miller & Carr can make their system oppressive to the people. This is a statement of facts—the opinion of interested parties to the contrary notwithstanding.

By request of the Executive Committee, L. M. Holt,

the soil in proportion to the acreage of each. There are no capitalists whose interests conflict with the interests of the men who own the land to be irrigated. The same state of affairs exists nearly every year throughout the Southern California.

The enforcement of the Supreme Court decision would practically wipe out of existence the south end of the State, and the main reason that can be assigned for this is the property value. In that section the fact that no one can be brought to believe that any people or any section of country will ever submit to being wiped out of existence even by a Supreme Court decision.

By the enforcement of the Supreme Court decision all the waters of the Santa Ana river would be turned back into the stream or diverted among irrigators owners and such as to irrigate Redlands, Riverside, Highland, Laguna, Temecula, Anahiem, Santa Ana, Orange and Tustin City to the extent of \$50,000,000 worth of property. This is nothing of a smaller settlement. This decision is one that can be said to say nothing of the other irrigation interests of the State.

This is not a contest between Lux and Haggins; it is a contest to the great irrigation of the State from the irrigation of the rivers. Rather than the State could better afford to buy out the interests of both of these great firms and request them to leave the State.

The people who were instrumental in this campaign for the past three years are opposed to any monopoly of the waters. Messrs. Haggins & Carr do not represent the irrigation side of this question only in a very small way. They are not in agreement with some modifications, perhaps will thoroughly protect the people from any water monopoly. The Legislature will be called upon to pass some similar measure at an early day that will afford the people ample protection.

I might also state in this connection that Miller & Lux own one of the largest canals in the State, but that under the District Bill he has no right to do what Miller & Carr can make their system oppressive to the people. This is a statement of facts—the opinion of interested parties to the contrary notwithstanding.

## LOCAL INTELLIGENCE.

## THOROUGHBREDS AT AUCTION.

Does it Pay to Raise Thoroughbred Horses for Auction sales?

The third annual sale of thoroughbreds, the property of Theodore Winters, comprising the produce of Norfolk, Joe Hooker, Jumbo and Three Cheers, at Rancho del Rio, took place at the stables of Chas. H. Shear, opposite Agricultural Park, Saturday afternoon. Colonel S. D. Bruce, of the *Field and Farm*, New York city, and author of the American Stud Book, was the auctioneer. The animals offered for sale included seventeen colts and fillies, a thoroughbred filly four years old, and three aged brood mares. The colts were of excellent form, large, well developed, and of various colors, and several types of race-horses, the full brothers and sisters of animals that have during the past few years won laurels throughout the United States, and done much toward establishing the now universal control of racing in this country. The "white grass" section of Kentucky is the national breeding and racing place of the coming kings and queens of the American turf.

Winters' studs, which are all good race horses, on their day, and those in hand in nearly every instance proved to be racers, Norfolk, a bay horse, was foaled in 1861, bred by Robert A. Alexander, of Woodburn, Ky. He is by Lexington, dam Novette, a good mare, and is of good and respectable ancestry. Norfolk ranks as the best son of the great Lexington. He was never beaten on the turf, and his race at three miles in 2:50 and 2:52 is the best one ever run. He is sired by a good son, Balfour, Bay colt, foaled 1860, by D. F. Prince, Balfour Box, Dredge Dollar, Flood, Prince of Norfolk, Duchess of Norfolk, Louisa, Queen, Hattie B., Alta and numbers of others.

Joe Hooker is by Monday, dam Mayday, a good mare, and is a good race horse, foaled in 1872, and is sire of Fred Collier, Jim Renwick, Neva, Winters and other winners.

The Jumbo, a dark bay horse, foaled in 1871, by Imp. Hureh, dam Young Fashion, is by Imp. Monarch. He has the Newminster and Bay Middleton blood upon the Prism and Catton through Trustee. His grandam was the best race mare of her day, and ran second to the great mare of the North against South, run May 10, 1842. His ancestry were all distinguished upon the turf.

Three Cheers is a finely-formed chestnut horse, foaled in 1877, and a full brother to Joe Hooker.

The number of speculating horsemen present was small, the bidding in no instance was spirited, and some of the more prominent buyers, who were in the room, remarked that those sold were given away. Below is given a list of those sold, with the name of the buyer and purchase price:

Colt, foaled March 24, 1884, by Norfolk, dam Golden Gate, by Imp. Lexington. W. M. Murray, \$350.

Dynamite, chestnut colt, foaled May 12, 1884, by Joe Hooker, dam Chestnut Belle, by Imp. Cooper, \$200.

Chestnut colt, foaled January 9, 1883, by Joe Hooker, dam Fawn, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled January 12, 1885, by Joe Hooker, dam Marian, by Malcolm, Kelly & Lynch, \$1,500.

Chestnut colt, foaled February 23, 1885, by Joe Hooker, dam Countess Zeika, by Norfolk. Kelly & Lynch, \$725.

Bay colt, foaled May 10, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.

Chestnut colt, foaled March 28, 1885, by Joe Hooker, dam Anna, by Norfolk. W. M. Murray, \$300.
